

CONVEYOREASE

Self Contained 10' x 15" Conveyor Unit

CONVENIENT AND VERSATILE

Designed with the homeowner and handyman in mind. ConveyorEase is the affordable lightweight conveyor that handles jobs previously done with buckets or wheelbarrows. From digging out a basement to moving firewood, dirt, rock, mulch and so much more, ConveyorEase enables you to do the job quicker and easier with less help.

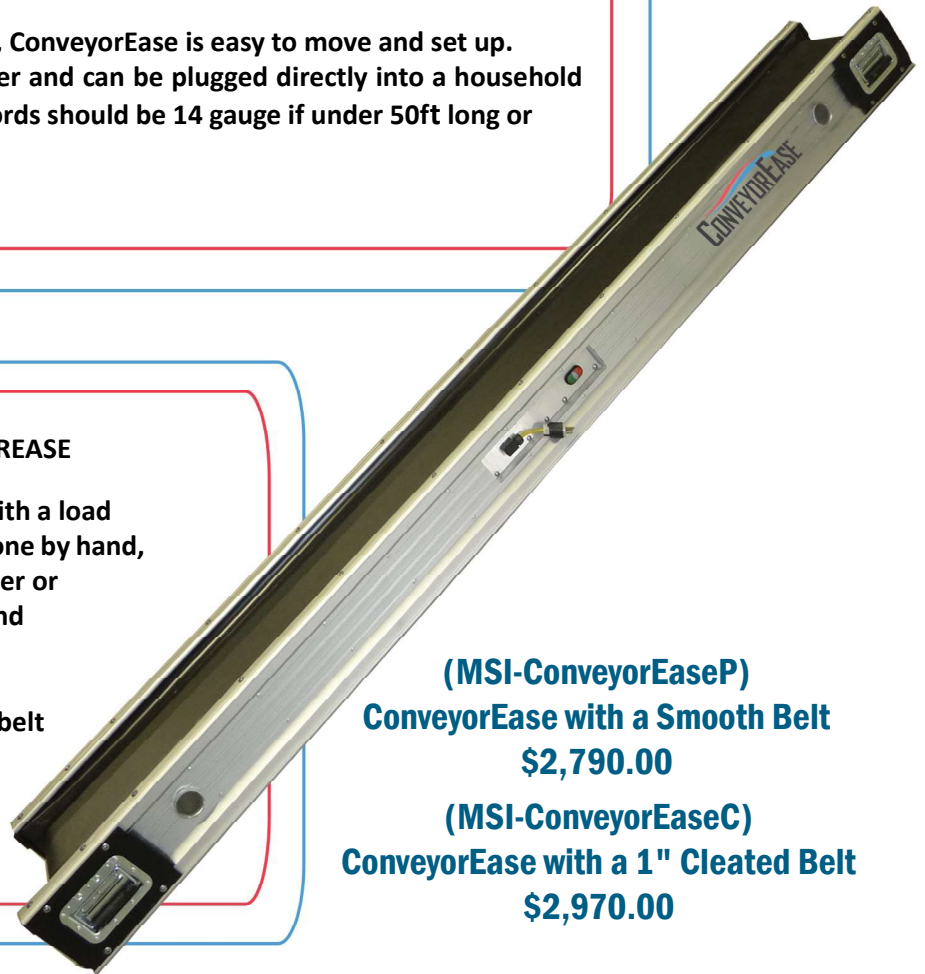

PORTABLE AND EASY TO USE

At only 130 lbs, 10' long and 15" wide, ConveyorEase is easy to move and set up. ConveyorEase uses 110/120 volt power and can be plugged directly into a household wall socket or generator. Extension cords should be 14 gauge if under 50ft long or 12 gauge up to 100ft long.

LOADING AND RUNNING CONVEYOREASE

ConveyorEase runs at 65ft/minute with a load capacity of 200 lbs. Loading can be done by hand, shovel or wheelbarrow. Add a hopper or side extensions to assist in loading and containing materials.

ConveyorEase comes with a smooth belt but can be ordered with an optional cleated belt.
